

FOR IMMEDIATE RELEASE

Wolf Boy and His Magical Warriors: Like a Pie in the Face of History!

September 3, 2014

New York, NY - If you cross *Conan the Barbarian* with *SpongeBob SquarePants* and add a sprinkling of *Indiana Jones*, you'll begin to understand Wolf Boy and his Magical Warriors.

In our first comic book, **Wolf Boy and the Wrath of Stickybeard**, we explore his modest beginnings as he's raised by a two-headed she-wolf named Volupa and decides to break free and make it in the world in his chosen profession - a HERO!

About the graphic novel series:

Hijinx, magic, fun, and highflying adventure weave their way through every volume as the madcap trio sink Atlantis, topple the Great Wall of China, destroy the Colossus of Rhodes, get Socrates arrested, and burn down the Library of Alexandria. Few can claim to have set history screaming off course more often.
